

ROTARY INTERNATIONAL

Dr. Jack McCulley
Superintendent of Schools
Sterling Regional School District
501 S. Warwick Rd
Somerdale, NJ 08083

ALLEN K. TAYLOR
District Governor 7640
2006-2007

Dear Dr. Jack Mc Culley

December 8,2008

This is a letter of congratulations to you and your school. You and your Board of Education can be especially proud of your staff and students. As a past district governor of District 7640 of Rotary International, I am happy to recognize the outstanding contributions of your Interact Club supervised by Mrs. Stepash. It is uplifting to witness young high school students actively involved in serving its community. However, for a group of students to be informed of tragic issues in third world countries is amazing in and of itself. Your group took action to help the starving and dieing children in Haiti. Haiti has been devastated by four hurricanes. In one case , all the children in one orphanage were drawn. Millions are starving and dieing of malnutrition.

Rotary International has taken a major role in helping the people of Haiti, and will continue to do so. The project provided shoes , clothing, non prescription drugs ,soap, and a variety of smaller items. President Luis, the Interact President, visited the White Horse Rotary Club and explained the many projects the Interact Executive Board has planned. I am certain that the club activities at Sterling present an expense for the Sterling BOE; however, it is clear that it is funds well spent. Again, thank you for your outstanding programs and your wonderful student body. I hope that you can find time in your busy schedule to congratulate Mrs Stepash and the students involved.

Respectfully,

Allen K. Taylor
PDG Allen K. Taylor
