

## Calling all Interactors to create their own Earth Day message

2010 is the 40th anniversary of Earth Day and it falls on April 22nd. To celebrate this important day and to create awareness about environment and sustainability in the community, we have created a unique and innovative project for all members of Interact Clubs to participate. Here is how you can participate:

1. Students are asked to use their imagination, design, and creative skills to come up with a green/sustainability (for example: going green, recycling, conserve water, energy & paper, eat local, etc.) message that can be printed on a 5 x 7 card. They can create this either electronically (using computer graphic tools) or on a physical card (paint, sketch, draw).

2. **Submit your designs by April 15, 2010.** You can submit your project electronically to [uday.shah@yahoo.com](mailto:uday.shah@yahoo.com) or send to the following address: Uday Shah, 305 Glenn Avenue, Egg Harbor Township, NJ 08234.

3. All designs will be put up on a website for students and public at large for vote to select the most popular designs.

4. **The top three designs will receive a cash prize of \$50 each.**

5. We will select at least the top 10 designs based on the online vote and convert them into post cards for sale. Proceeds from the sale of the postcards will benefit Interact activities and other green initiatives in South Jersey.

If you have any questions please feel free to contact Uday Shah at [uday.shah@yahoo.com](mailto:uday.shah@yahoo.com) or 609-703-0409.

Thank you.
